

# AMOS SS24 Project #P4 - Building Information Enhancer (BUILD.ING)

Project name	Building Information Enhancer
Project mission	The team agreed to create an MVP for the BCI Building Information Enhancer, the core functionality will be displaying data from a fixed number of sources, including satellite images, charging stations and data needed for sustainability certification. Our goal is to build a practical tool that can grow with our users' needs.
Industry partner	BUILD.ING
Team logo	
Project summary	An open-source "Building Information Enhancer" System allowing various property market stakeholders to access location based calculations for potential energy savings, sustainability certifications, solar power potential, and aiding in district planning.
